Position statement

Benefits of UK associaton to Horizon Europe

July 2019

Access to European Union (EU) research and **depre**ent framework programmes for universities and businesses enhances our global competitiveness by supporting UK scientists to forge links and collaborations between countries, sectors and subjects.

"I want to look at the strongest posible form of association to Horizon Europe [...it is] not only necessary, but essential."

Chris Skidmore MP, Parliamentary Links Day June 2019 1. Horizon Europe should continue tsupport excellence and international collaboration to benefit Europe's

science and innovation base and its citizens.

2. When it leaves the Ethe UK should associate fully to Horizon Europte preserve and enhance these international collaborations and the many reciprocal **be**fits they bring to both the UK and the European Union.

3.

Discovery research in the UK benefits significant from EU funding and is a vital component of a

Global Challenges

To support the delivery of the national and global callenges we face, UK scients must have access to international networks of researchers with relevant knowledge and expertise.

The nature of mission-led research is that it is broad, involves numerous An independent report by overlapping disciplines and requires cooperation and collaboration. The chemical sciences community is working to develop innovative technologies to address global societal challenges, from water purification membranes and dought-resistant crops, to new antibiotics, batteries and solar cells. The €5.3bn Innovative Medicines that "Importantly such challenges cannot be solved by sciences, supported by Framewor® rogramme 7 and Horizon 2020. The partnership works towards speeding up the discovery and delivery of new medicines to patients across the worl³.
